BUNURU	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
<b>Bunuru - Second summer - February - March</b>  The hottest time of the year, Bunuru is a season of little to no rain and hot easterly winds with a cooling sea breeze in the afternoon if you are along the coast. The weather during this time permitted Noongar people to live and fish along the coast, rivers and estuaries and their diet consisted mainly of freshwater and sea foods. White flowers, especially flowering gums including Jarrah, Marri and Ghost Gums are in full bloom. The female Zamia (Macrozamia Riedle) is also notable due to being much larger than its male counterpart, with huge cones emerging from the centre of the plant with masses of a cotton wool like substance. As the weather continues to be dry and hot, the Zamia seed upon the cone changes from green to bright red, indicating they are ripening and becoming more attractive to animals, particularly the emu, that will eat the toxic fleshy outer part of the plant. <small>Artwork by Darryl Bellotti</small>
