BUNURU	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
 <p>Djeran - Autumn – April - May</p> <p>Djeran season sees a break in the very hot weather, and the change in the season is evident in the wind with seeds, dust and leaves blown across the landscape. Flying ants can be seen cruising around in the light southerly winds of Djeran. You'll also notice this season brings cooler nights with a dewy presence for us to discover in the early mornings. This season sees red wildflowers take bloom, especially the Red Flowering Gum (Corimbia Ficifolia) and the petite Summer Flame (Beaufortia Aestiva). The male and female Sheoaks (Allocasuarina Fraseriana) form cones and Banksia start to display their flowers ensuring there are nectar food sources for the many small mammals and birds that rely upon them.</p>
